

## ABOUT DQE COMMUNICATIONS

A partner for your business with an unparalleled level of network service & support

### Your Partner...Your Solution

Established in 1997, DQE Communications, LLC (DQE) is a subsidiary of Pittsburgh-based Duquesne Light Holdings, and presently operates throughout western Pennsylvania and northern West Virginia.

Businesses today need the fastest data speeds possible, the highest level of service reliability, and the most dependable support. Your data network is a critical element of your operation. DQE Communications offers flexible, customized solutions for organizations of every size, providing unrestricted bandwidth and scalability.

For data networking at the highest committed speeds, including built-in redundancy for exceptional reliability and experienced support based right in your area, talk to DQE Communications.

### Solutions for Organizations with the Highest Demand

Our existing customers include businesses of all sizes and industries, such as:

- Education
- Finance
- Government
- Health Care
- Data Centers
- High Technology
- Manufacturing
- Private Enterprise
- Telecommunications
- Wireless Backhaul

### Internet + DDoS Mitigation Services:

4 Tiers of Internet Services, customized to meet your business needs.

Add DQE's DDoS Mitigation Services to your Internet offering and enhance the level of security for your organization's network.

### Dark Fiber:

Private, customized, secure network with unrestricted bandwidth and scalability. Ideal for those businesses with the very highest bandwidth needs.

### Metro Ethernet + Cloud Solution:

Reliable and secure managed Ethernet service with real-time, self-service scalability to adjust bandwidth in seconds, from 10 Mbps to 10 Gbps.

Add a private, secure & direct networking connectivity to your Cloud Service Provider with DQE's Cloud Solution.

### Wavelength:

High-bandwidth, low-latency technologies with a wide range of configuration options that can scale with your business growth.

### Colocation:

Environmentally controlled, secure space to safeguard mission-critical data storage equipment. Our 24 x 7 multi-tier card access system with installed, locked cabinets offers reliable data storage with access to the DQE fiber optic network.
