

COLOCATION SOLUTION

State-of-the-art facilities engineered to protect your business data

Your Business Continuity Solution

Every organization knows that colocation is imperative. But the choice of your colo provider can make the difference between true protection and a disastrous breakdown. With state-of-the-art colocation sites situated in downtown Pittsburgh as well as Butler, PA, DQE can offer reliable data storage wherever is most suitable for your company's security needs.

Highlights of both DQE Colocation Facilities

- Environmentally controlled, secure space
- Access to the DQE network with diverse fiber entry into building
- DQE provides and installs lockable cabinets
- 24/7 multi-tier card access system
